Client:

St. Hubert Job & Networking Ministry

Problem:

The St. Hubert Job & Networking Ministry needed to create a brand and overall look for itself as an organization. The Ministry continues to grow and serve thousands of people in the surrounding communities. With growth, the Ministry wanted to establish itself as a professional, yet down-to-earth, support group and organization. They had an immediate need for a logo to reflect this look.

Solution:

Caribou Communications created a logo to reflect the friendly, open, networking personality of the Ministry. The logo is currently being used by the St. Hubert Job & Networking Ministry.
